

July 2015 EAC Employee of the Month
Marlene Winburn
Public Works Department

We respectfully submit Marlene Winburn as “Employee of the Month”.

With the merging of Sanitation and Utility Billing, Marlene has responded with courage and flexibility in adapting to a very different work environment, sharing details about past practices and incorporating new methods into an established system.

Marlene is the model of dependability. She is always at work ready to go at the appointed time. She strives to follow all policies and rules with exactness. Marlene strives daily to share how things work with customers, working to improve the ability to stay in touch with customers by tirelessly making sure information is up to date with every customer she works with. This is accomplished while creating work orders to meet needs and taking payments over the phone.

This has been Marlene’s manner of service to the citizens of West Valley City for more than two decades. She serves as an honorable example to us all and is deserving of the honor of recognition as West Valley City’s “Employee of the Month”.
