ISSUE:

Authorization to change 24-2-113 (3) to match fee schedule pertaining to late charges assessed through Utility Billing.

SYNOPSIS:

This ordinance would change section 24-2-113 (3) so that it matches late charges specified in fee schedule.

BACKGROUND:

When late charges were changed to simplify and allow said charges to be declared upon Utility Billing’s statements, section 24-2-113 (3) wasn’t updated to match. The intent of this ordinance is to bring section 24-2-113(3) to agree with the consolidated fee schedule.

This amendment will remove the statement in conflict with the consolidated fee schedule, and add a statement declaring that “as set forth on the customer’s billing statement shall result in the imposition of the late fees set forth in the City’s Consolidated Fee Schedule”.

RECOMMENDATION:

Approve changing section 24-2-113(3) to comply with consolidated fee schedule.
