ISSUE:

Betterment Agreement; UDOT and West Valley City – I-215 West; 4700 South to SR-201

SYNOPSIS:

An agreement with UDOT to replace pipe culverts crossing I-215 during a state pavement reconstruction project.

BACKGROUND:

UDOT is preparing to bid a project to reconstruct I-215 from 4700 South to SR-201 beginning in 2016. West Valley City has requested a betterment from UDOT to replace two storm drain pipe culverts that run parallel on either side of the Brighton Canal. The culverts are aged and in poor condition. This opportunity to reconstruct the pipes will likely be the most economical time the city will ever have to replace them.

This agreement facilitates the replacement of the culverts at an estimated cost to the city of \$75,632. In the event that the actual betterment costs are higher, the city will be required to pay the additional amount. In the event that the actual betterment costs are lower, UDOT will refund the difference back to the city.

This resolution authorizes the expenditure of up to \$100,000 for the betterments. The funds will be paid using Storm Water Utility fund balance.

RECOMMENDATION:

Approval and Execution of the Agreement
